### 1. what we have NOT completed:

From what I saw and when I looked over the code and tested out all of the pages and the execution of them everything looked complete.

### 2. any major challenges:

two challenges I encountered when coding the blog site was that I forgot that we had to add `start_session()` and I had a lot of problems getting session variables before I remembered and also a big challenge I had was styling the blog site im not that great with css and I had a hard time getting the site to look like what I had in mind.

### 3. any special instructions for testing your web app.

I don't have any special instructions.
